Sigma Science Names New Vice President of Operations

ALBUQUERQUE, New Mexico – Sigma Science, Inc., has promoted Wayne Hohs to Vice President of Operations. In this role, Hohs is responsible for the management and execution of Sigma’s client portfolio. Hohs has been with Sigma Science since 2021 when he joined the company as a Senior Program Manager. In this new role, he reports to In McCann, Executive Vice President for Sigma Science.

Hohs has 40 years of nuclear industry experience, including program and project management, nuclear facility and reactor startup and operations, spent nuclear fuel management, and transuranic mixed low-level waste disposition. He has a Bachelor of Science in Fire Protection and Safety Engineering Technology and a Master of Business Administration.

Sigma Science Chief Executive Officer, Gilbert Torres, commented that “Wayne has been instrumental in helping us grow our existing contract portfolio and drive positive contract performance. In his 2 years with the company, he has become a vital member of the team. His new role better positions him to help lead the company in meeting client needs while continuing to grow.”

Sigma Science is a small business providing comprehensive nuclear engineering and technology services to federal and commercial clients. Since 1996, Sigma has delivered technical expertise and innovative solutions to complex problems across the nuclear security enterprise.
