Sigma Science Promotes McCann to Executive Vice President Role

ALBUQUERQUE, New Mexico – Sigma Science, Inc., has promoted In McCann to Executive Vice President. In this role, McCann is responsible for all day-to-day operations of the company.

McCann joined Sigma Science in 2019 as the Chief Technology Officer. In 2021, he was named Vice President and General Manager, expanding his oversight role in the company.

McCann has more than 23 years of extensive experience in cybersecurity, software engineering, data science and analytics, satellite development, robotics, remote sensing, communications, and information technology. Prior to joining Sigma Science, he spent 17 years at Sandia National Laboratories, holding various senior leadership, programmatic, and technical positions. He has a Master of Science degree in Computer Science and a Bachelor of Science degree in Biochemistry.

Sigma Science Chief Executive Officer, Gilbert Torres, noted that “In has been instrumental in the growth of Sigma Science over the last several years. In this new role, his leadership and experience will help position the company for continued growth while maintaining our reputation for excellence.”

Sigma Science is a small business providing comprehensive nuclear engineering and technology services to federal and commercial clients. Since 1996, Sigma has delivered technical expertise and innovative solutions to complex problems across the nuclear security enterprise.
