Sigma Science Sponsors Concert Series

As Sigma Science expands its role in Idaho, the Idaho Falls Arts Council provided a great way to become more involved in the local community: the Sigma Science River Concert Series launched this month. Presented by the Idaho Falls Arts Council, the concert series features a different band/performer every Tuesday evening through the summer. The concerts are held on the banks of the Snake River in downtown Idaho Falls and are free to the public.

Sigma Science is a small business providing comprehensive nuclear engineering and technology services to federal and commercial clients. Since 1996, Sigma has delivered technical expertise and innovative solutions to complex problems across the nuclear security enterprise.
